

The full intelligence of the firm. Around every client.

Not another chatbot.
One advisor operating system.

Ask / Analyze / Create / **Anticipate** / Act

The chat window is the entry point.
The intelligence underneath is the advantage.

ONE SHARED INTELLIGENCE LAYER

Sources: Internal vision (Aug 2026) · Supplied executive paper

Claude validates the direction.

A conversational front door that connects the tools advisors already use.

01 / CONNECT

PORTFOLIO + ANALYTICS
BlackRock Advisor Center
Addepar · Orion

CRM + CONVERSATION
Wealthbox · Redtail · Zocks

ESTATE + TAX
Wealth.com

ALTERNATIVES + PLANNING
iCapital · Investnet

02 / ORCHESTRATE

Claude Cowork
Financial Advisors plugin

Meeting prep

Post-meeting follow-up

Portfolio review

Estate + tax brief

Alternatives brief

Prospect intake

Compliance pre-check

Advisor onboarding

03 / PRODUCE

Meeting-ready briefs

Analysis + work products

Draft communications

CRM actions for review

Eight published advisor workflows

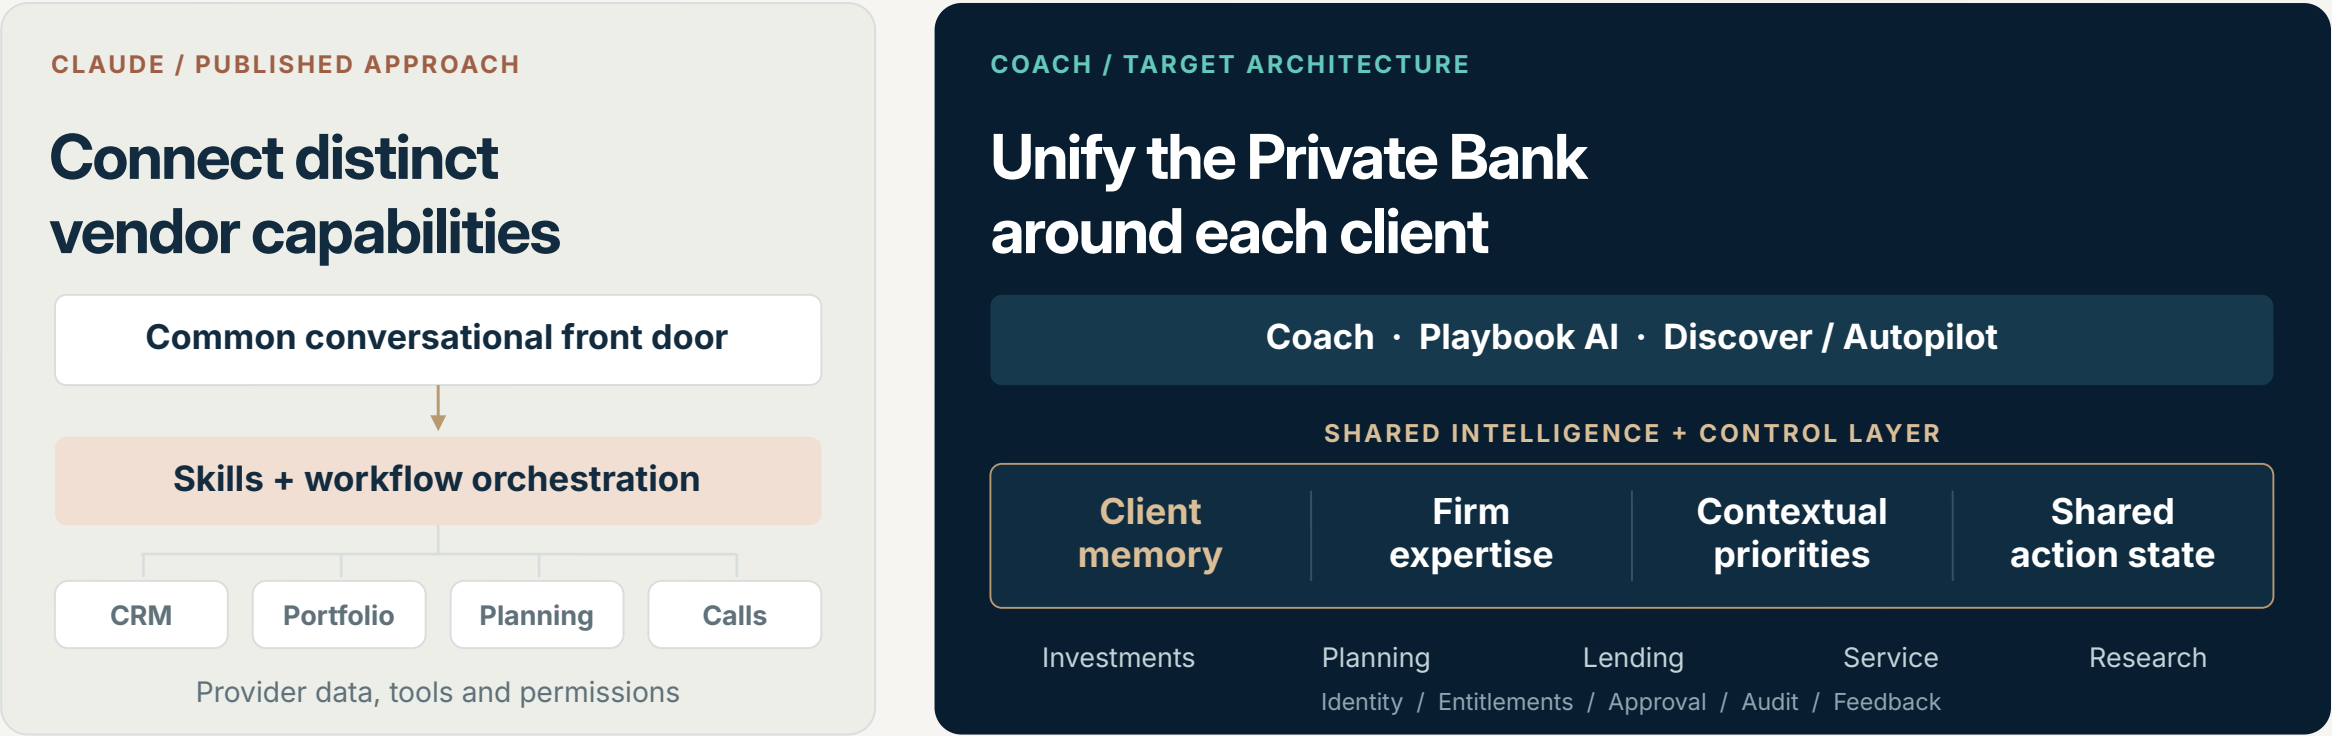

Critical actions remain subject to human review.

Beyond Q&A: recurring tasks, partner analytics and generated work products are also documented.

The interface converges. The intelligence layer differentiates.

What we unify underneath the chat window is the durable opportunity.

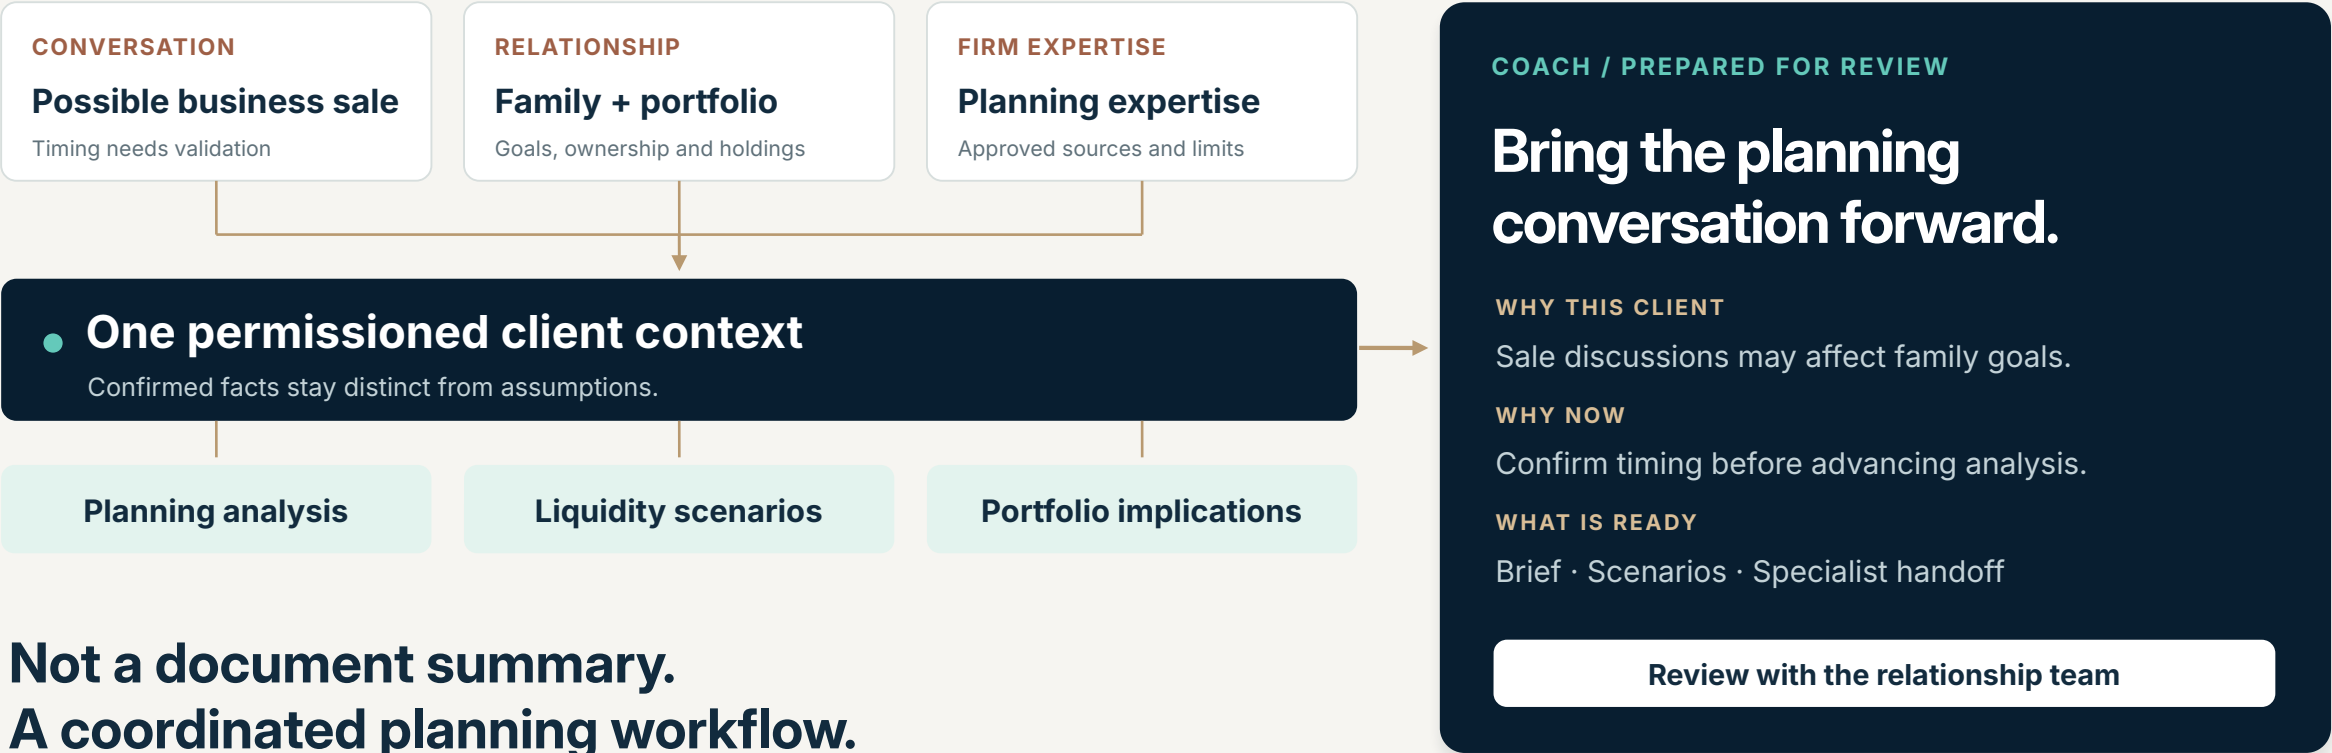

Access is the starting point. Shared memory, priorities and follow-through must be designed.

Strategic architecture comparison. Coach target includes roadmap capabilities; Claude also supports context, analytics and scheduled work.

From a client signal to a prepared next step.

Connect the relationship, the firm's expertise and the work needed to move forward.

Not a document summary.
A coordinated planning workflow.

Human validation → Specialist review → Named owner and tracked follow-through

Sources: Internal vision (Aug 2026) · Internal roadmap (Aug 2026)

Raise the ceiling. Raise the standard.

COMMAND MODE

More leverage for experts.

Compare the scenarios. Build the analysis.
Show me the assumptions.

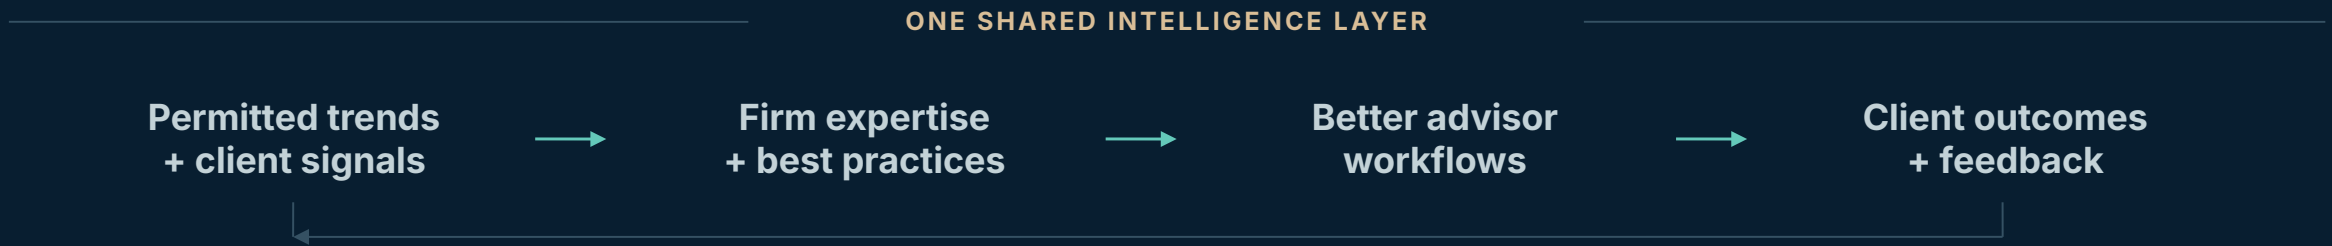

Sophisticated analysis / Dynamic workspaces

GUIDED MODE

Better defaults for everyone.

These relationships need attention.
Here is why. Here is the work ready to review.

Relevant insights / Prepared actions / Guidance

Own the intelligence. Integrate the best tools.

Sources: Internal vision (Aug 2026) · Internal roadmap (Aug 2026)

Comparable workflows.

A different integration ambition.

Compare delivery depth and integration, not the number of agents or plugins.

WORKFLOW	CLAUDE / DOCUMENTED	COACH / CLOSEST CAPABILITY	COACH STAGE
Meetings + follow-up	Pre- / post-meeting skills; connected CRM and conversation data	Meeting Prep; Call Assist / Debrief	Foundation
Portfolio + planning	BlackRock Advisor Center analytics; Wealth.com estate + tax scenarios	Investment + planning agents; complex planning work in development	Evolving
Artifacts + workspaces	Cowork work products; interactive analytical displays	Playbook AI	Evolving
Proactive guidance	Scheduled tasks; partner-generated portfolio opportunities	Coach Insights / Ideas; broader Autopilot on the roadmap	Mixed
Client memory	Client context from connected systems; firm-specific integration still matters	Persistent Client Agent; living relationship memory	Roadmap
Governed action	Reviewable drafts and staged administrative updates	Assists + Action Center	Roadmap
Firm-wide learning	Firm-specific configuration; integrated learning loop not established at launch	Hive; reusable skills; outcome and feedback loop	Roadmap

Foundation = established building blocks, not certified parity. Evolving = development / rollout. Mixed = foundation + roadmap.
Roadmap = target design. Coach stages use supplied internal materials and descriptions, not an independent release audit.
